NO. 260.

The Bangor Daily Whig and Courier is published at Five Dollars a year, payable half yearly in advance. All subscriptions for less than a year are paid in advance, and all orders for discontinuance must be accompanied by the amount due.

The Bangor Courier is published at the office of the Daily Whig & Courier every Tuesday morning, at Two Dollars a year in advance or Two Dollars and Fifty Cents if not paid within six months from the time of subscribing.

The publishers will not hold themselves responsible for any error that may occur, beyond the amount charged for the advertisement.

Mr. Elihu Field, at the Mechanic's News Room, Boston, is Agent for this paper. Advertisements left with him will be immediately forwarded.

The most reliable remedy for diseases arising from the impurities of the blood, Dyspepsia, Scrofula, and all chronic diseases, also a substitute for Calomel as a cathartic in fevers, and all bilious affections. It is the most effective and safe remedy for general diseases, which this remedy possesses, as is demonstrated in the detailed cures of the various complaints the proper medicine justified in claiming for its superior consideration. The numerous testimonials of its effects, from physicians, druggists, and distinguished individuals, placed beyond the reach of all remedies of the day and entitles it to special confidence.

These Pills have acquired an unprecedented celebrity as an anti-dyspeptic and anti-bilious remedy, and this reputation being fully sustained by the high character of its testimonials and the increasing demand for the medicine, it is only necessary for the proprietor to continue in caution, that the public may not mistake other medicines, which are introduced as Tomatoes for preparations for the Compound Tomatoes Pills.

They have no rival in curing bilious diseases, dyspepsia, liver complaints, sick headache, jaundice, rheumatism, heart burn, acid stomach, indigestion, loss of appetite, constipation, &c.

Those who wish the genuine medicine, so highly recommended, entirely free of all, and prepared by a regular educated Physician, must be particular to inquire of the proprietors, and see that they are labeled Dr. Williams' Compound Tomatoes Pills.

For a full record of this medicine's testimonials, see a pamphlet in the hands of all who will inquire. Some are given without the signature of G. R. HILL, M.D., sole proprietor, Hartford, Conn.

For sale in Bangor, by G. W. HOLDEN, G. W. LADD, and A. P. GUILD, and by authorized Agents in all the towns in the State.

HUMAN HAIR.

Cleanliness of the Head & Hair.

STRANGE! it is that persons who attend strictly to personal cleanliness, bath, &c. should neglect the Head & Hair the most essential the most exposed and the most beautiful, when properly cared for of all the gifts of the Creator. It is free may it be kept of dandruff or scurf with certainty that the hair cannot fall out by the use of the Balm of Columbia. Ladies will you make your toilet without this article? I answer fearlessly, No! if you have once tried and experienced its purifying effects its sweet perfume.

A hundred articles have been put forth on the credit of this the only one the only really valuable article. A mass of testimony from all classes on these facts.

LOOK OUT Counterfeiters are abroad, look for the name of COMSTOCK & Co., on the splendid wrappers, and never buy it without that name.

[From the Boston Chronicle Jan 10]

We see by an advertisement in another column, that Messrs Comstock & Co. the Agents for Oldridge's Balm of Columbia, have deputed to sell that article in Boston and elsewhere. We know a lady of this city, whose hair was so nearly gone as to expose entirely her phenological developments, which considering that they betokened a most amiable disposition, was not, in reality, very unfortunate. Nevertheless she incurred the loss of locks that she had worn, and after a year's fruitless resort to mis-called restoratives, purchased, some months ago, a bottle or two of Oldridge's Balm and she has now resumed in rich profusion, glossy and of raven blackness. We are not putting none of the commodity has been sent to us, and, indeed, we do not want any for, though we were obliged to wear a wig a year ago, we have now, through its virtues, hair enough, and of a passable quality of our own.

Baring Fraud.

The Balm of Columbia has been imitated by a numerous counterfeiter. Let it never be purchased or used, unless it have the signature of COMSTOCK & Co. on a splendid wrapper. This is the only external test that will secure the public from deception.

Address COMSTOCK & Co., Wholesale Druggists New York, 71 Maiden Lane.

THE BEST METHOD FOR THE ABOLITION OF DISEASE, IS TO CURE AND PURIFY THE BODY Wright's Indian Vegetable Pills, or Indian Purgative, Of the North American College of Health.

Are now acknowledged to be the best medicine in the world for the cure of EVERY VARIETY OF DISEASE because they thoroughly cleanse the stomach and bowels of those bilious humors which not only paralyze and weaken the digestive organs, but are the cause of headache, nausea and sickness, palpitation of the heart, rheumatic pain in various parts of the body, many other unpleasant complaints.

THE INDIAN VEGETABLE PILLS Are also a certain cure for intermittent, remittent, nervous inflammatory and other fevers, because they cleanse the body of those morbid humors, which when confined to the circulation, are the cause of all kinds of FEVERS.

So, also, when morbid humors are deposited upon the membrane, and muscle causing those pains, inflammations and swellings called RHEUMATISM, GOUT, &c.

The Indian Vegetable Pills may be relied on as always certain to give relief, and if persevered in will most assuredly and without fail make a perfect cure of the above painful maladies. From three to six of said Indian Vegetable Pills taken every night on going to bed, will in a short time so completely rid the body of every thing that is opposed to health that Rheumatism, Gout, and pain of every description will be literally DRIVEN FROM THE BODY.

From the same reason when, from sudden changes of atmosphere, or any other cause, the perspiration is checked, and those humors which should pass off by the skin, are thrown inwardly causing HEADACHE, GIDDINESS, Nausea and sickness, pain in the bowels, watery and inflamed eyes, sore throat, hoarseness, coughs, consumptions, rheumatic pains in various parts of the body, and many other symptoms of CAUGHING COLD.

THE INDIAN VEGETABLE PILLS will invariably give immediate relief. From three to six of said Pills taken every night on going to bed, will in a short time not only remove all the above unpleasant symptoms, but the body will be restored to even sounder health than before. The same may be said of ASTHMA, OR DIFFICULTY IN BREATHING.

The Indian Vegetable Pills will loosen and carry off by the stomach and bowels those tough, pillugmy humors which stop up the air cells of the lungs and are the cause not only of the above distressing complaint but when neglected often terminates in a still more dreadful malady called CONSUMPTION.

It should also be remembered that the Indian Vegetable Pills are certain cures for PAIN IN THE SIDE, Oppression, nausea, and sickness, loss of appetite, constipation, yellow tinge of the skin and eyes, and every other symptom of a torpid or diseased state of the liver, because they purge from the body those impurities which if digested upon this important organ, are the cause of every variety of LIVER COMPLAINT.

CAUTION

The public will please observe that the genuine medicine has the following wording on the sides of the boxes.

WRIGHT'S INDIAN VEGETABLE PILLS. (INDIAN PURGATIVE.)

Of the North American College of Health

And also round the border of the label, will be found in small type "Entered according to the Act of Congress in the year 1840 by WILLIAM WRIGHT in the Clerk's Office of the District Court of the Eastern District of Pennsylvania."

The public will also remember that all who sell the genuine Indian Vegetable Pills are provided with a certificate of Agency, signed by WILLIAM WRIGHT, VICE PRESIDENT OF THE NORTH AMERICAN COLLEGE OF HEALTH, and that pedlars are never in any case allowed to sell the genuine Medicine. All travelling agents will be provided with a certificate of agency as above described, and those who cannot show one will be known as base impostors.

If the public are cautioned against buying Pills of one A. L. Norcross, purporting to be the genuine Indian Vegetable Pills of the North American College of Health, but which are a base counterfeit. Also beware of one J. B. Rochefort, who is also engaged in the same business.

REMEMBER

That the only Agent for the genuine Pills in this City is DAVID BUGBEE Bookseller No. 2 Kenduskeag Bridge, which is the only place where the genuine can be had in Bangor.

The following gentlemen have been appointed Agents for the sale of the above valuable medicine.

PUBLIC LANDS IN THE STATE OF MAINE--FOR SALE.

TIMBER LANDS by the township half townships and quarter townships, in various parts of the State of Maine, situated on boatable waters, are offered for sale so as to suit all persons who may be disposed to purchase for lumbering operations and will be sold on liberal terms of credit. Also, Lands suitable for agriculture by the township, parts of townships and in lots for single farms are offered to accommodate all classes of purchasers.

These lands are well worthy the attention of all persons who are desirous of large timber or agricultural concerns, and are equally deserving the attention of those who only want lands upon which to locate themselves for farming purposes, and who wish to become actual settlers. In no part of our country does the productions of the earth find a better market to reward the farmer for his industry.

Those who choose to make up companies to purchase lands for agriculture, can be accommodated with tracts of one, two or three thousand acres more or less, with an opportunity of selecting lands in a body where they may greatly improve their condition for a small consideration. For price and terms, apply at the Land Office in the State House, Bangor, where the plans and other documents may be consulted, and every information given showing the location and qualities of the timber and soil.

DAILY WHIG AND COURIER.

TUESDAY, MAY 3, 1842.

Rhode Island.

During this day, great principles are to be settled in Rhode Island. One portion of the people believe that from and after this day the constitution is the fundamental law of the State, and that they are bound to support it and to recognize the officers chosen in accordance with its provisions, as the Government. Another portion of the people and among them those composing the present government believe that this constitution has not been adopted in a legal manner and has, therefore, no binding force. The present government feels itself bound to maintain its powers until legally changed, and that it would be an abandonment of its duty to allow of an illegal change of the government, however satisfactory the new government might be to the people. While there are legal steps to attend a desired end they think there is no justification in attempting to reach that end by revolution.

The suffrage party—those believing in the legality of the constitution will this day attempt to organize the new government and to exercise its powers. The existing government will assert and continue to exercise its own power, by which it will be obliged to prosecute and arrest the officers of the new government. Both these parties are expecting and prepared for a conflict. Both have military force at command. Each believes the other to be legally in the wrong. Both make it a point of abstract right, a principle to maintain their measures. It will be very hard for either party to yield. The one cannot, without letting the Government committed to them, slip through their fingers by abandoning what they have declared to be their duty. The other cannot without yielding to the demands of power what they claim as the legal right of the people and which they are pledged to enforce.

On Friday evening last, there was a large free suffrage meeting in the open air in Providence. The speakers were confident of success, and if there is any attempt at violence to-day on the part of the government they believed there was no lack of wherewithal to furnish a return. At this meeting the following resolutions were passed:

Resolved, That it is due to the cause of equal rights, and especially to the people of this State, that every member elected to the Constitutional General Assembly, should be punctual at his post on Tuesday next, at the organization of the government under the Constitution of the State of Rhode Island.

Resolved, That the Constitutional party, on Tuesday next, will be happy to reciprocate the most cordial, friendly, social intercourse with their opponents, if that be their pleasure; but that if they choose by force or baseness to attempt to prevent our organizing the government under the Constitution, the consequences to themselves and to the unoffending portion of the people of this city, will rest upon their own misguided heads.

Resolved, That we will, on Tuesday, as we do at all times, abstain from any exciting stimulus, and all other excesses, and it shall be our earnest endeavor, one and all, to observe and preserve the public peace.

Resolved, That the assertion made to-day in the Providence Journal, that lists of victims for destruction have been made out by the people for vengeance, is unqualifiedly false, and that no threats have been made against any men or body of men, and that said article receives, as it deserves, the deepest execration of this meeting; and as such, shall not remain as an excuse for the imprudent bragadocio bullies of the aristocracy.

Resolved, That the warmest thanks of the disfranchised citizens of this State, are hereby tendered to the generous and voluntary devotion given to the cause of equal rights in this State by the citizens of the City of New York.

Annual Exhibition of the Fire Department.

Yesterday was the day appointed by an Ordinance of the city, for a display of the Fire Department. A portion only of the Department was out on duty, but that the most important part of it, engines numbered 3, 4, and 5.

These engines were out in perfect order and with full-ranks and performed to the admiration of all who witnessed them. Their general merits we consider about equal. Each has its particular merit its particular favorite play in which it is unsurpassed, and upon these points parties divide and each has its cluster of admirers. But all of them, for efficiency in extinguishing fires for promptness in action and for all that the public need in this portion of the Fire Department, they are entitled to the highest confidence of the community. We think we might challenge comparison of these three engines, with their companies, with any in New England.

The Boston (No. 3) has been thoroughly overhauled the present season and can drive along an immense column of water.

The Ansony (No. 4) appeared in a highly finished condition and with a newly invented and splendid hose carriage in place of the two imperfect hose carriages heretofore used. The new carriage will carry about eight hundred feet of leading hose. The wheels are high and run easy, and the axle is constructed that a crank is shipped on to the nut that secures the wheel and by this means the hose is wound up in a remarkably short time. This carriage was built by members of the company. Indeed it is said the attention belonging to this company can construct an entire engine.

The Bangor (No. 5) was built by our fellow citizens, F. Muzzy, and it is high praise to say that in all the essentials of a good fire engine she is equal to the others in competition with her.

During the day we stepped into the parlors of these engine companies in the chambers of their

respective houses. Those of 3 and 4 were elegantly and appropriately furnished. It is quite a treat to visit them. No. 5 being comparatively a new company, has not furnished its parlor in so elegant a manner as the others. It is convenient however for business.

The annual exhibition, we think, would have given more general satisfaction, if the "Fire Companies" had been out, and a portion of the time had been appropriated to a sort of "sham fight" upon some building, with all hands at work.

The Boston Liberator, alluding to the usual annual Abolition Convention that meets in New York city, on the eleventh of this month, distinctly avows that its purpose now is to adopt the measures of a *Repeal of the Union of the States*, and that this project will occupy the deliberations of the convention. When men set out on a radical course, they generally run beyond all the bounds of common sense, and common safety.

The *Lincoln Telegraph* has been enlarged, but to our taste, not improved. We have for sometime past admired the neat, compact and beautiful appearance of the *Telegraph* and always found it sufficiently large to contain much valuable matter. Small papers compel one to condense much, but in that form it is generally more acceptable.

Our citizens were alarmed this forenoon by the cry of fire. A bed took fire in the porch of the house occupied by Widow Palmer as a boarding house, and the bed was nearly consumed together with the clothing of the maid who occupied the chamber. The damage trifling.

The publishers of the *AMERICAN MECHANIC* have now concluded that the price of their paper is less than it can be afforded for, and have wisely resolved to raise its price to two dollars a year, from and after the first of July next. A very proper improvement, and of which no one can justly complain.

Henry Chickeston, a seaman on board the *North Carolina*, has invented a gun carriage with an apparatus by which a gun can be pointed in an oblique direction, without moving the carriage, and with the utmost ease a 42 pounder only requiring one man on each side. Naval and military men speak highly of its merits.

The bright and beautiful blossoms of soft maple are now appearing in the borders of our forest. It is a pity that a larger number of these splendid and useful trees do not ornament the borders of our streets, in company with other varieties.

The *Belfast Journal* has a fair chance to swallow what it has said about the appointment of Mr. Reynolds to office by Daniel Webster. Nothing of the kind has taken place. The story is false, root and branch.

The whole state of Maine will be in arms this afternoon. It is the day of the annual inspection of the Militia and all good patriotic soldiers will appear on parade.

A few evergreen trees add much to the beauty of a homestead, and serve as admirable screens to gardens and orchards.

THE LADIES' COMPANION, Vol. XVII, No. 1. May, 1842. David Bugbee, Agent, Bangor.

The May number of this elegant Magazine has been laid upon our table by David Bugbee. It is the first number of a new volume, and whether we speak of the number and elegance of the engravings, the fine texture and clear whiteness of the paper, the neat and beautiful typography, the richness and variety of the letter press, the quantity of the matter, or the promptness and regularity with which it is served to the public, we should speak largely in praise of this Magazine which so justly deserves to be popular. Bugbee can supply numbers to all who wish them.

The following somewhat spirited resolution was adopted at a large meeting of Mr. Giddings's constituents in Ohio, at a late meeting held in that District:

Resolved, That the Hon. J. R. Giddings, on his return to Congress, be and he is hereby instructed, at the first moment it shall be in order, to introduce the identical resolutions over again, and insist that the House of Representatives act upon them by a direct vote.

Tariff. Almost every mail, says the New York Tribune, brings additional and most potent arguments in behalf of a protective Tariff, in the suspension of some valuable manufactures, and the consequent deprivation of the means of living of some hundreds of the laboring classes.

We are, to-day, that the *Columbia Anthracite Furnace*, at Danville, Pennsylvania, was blown out on Monday last, after being in blast for nearly fifteen months. The proprietors have been induced to this step by the low price of Iron, and the little demand for the American article, in consequence of the large stock of Scotch metal in the eastern market.

The Dutch have this good proverb: *thief never enrich, and never impoverish, nor payers under any work.*

CONGRESS.

Correspondence of the Tribune.

Washington, April 26.

In the House, Mr. Everett offered a resolution to terminate debate in Committee of the Whole on the Union to-morrow (Friday) at 12 o'clock. Mr. Adams expressed his opinion against circumscribing debate when so important an amendment was pending, and in opposition to the resolution.

Mr. McClellan of N. Y. moved to lay the resolution on the table; which motion was agreed to. Ayes 70, Noes 55.

On motion of Mr. Cushing, by ayes 31, Noes 63, ten thousand extra copies of the report from the Committee on Foreign Affairs (Mr. Cushing's) relative to the colonial trade, were ordered to be printed.

Mr. Cary offered a resolution, providing that the House, on and after the 2d May prox., take a recess from 2 o'clock to 3 o'clock P. M. Objection being made, Mr. C. moved a suspension of the rules for its reception; which motion failed: Yeas 30, Noes 88—two-thirds not voting therefor.

(Hon. Anderson Mitchell, Representative elect from North Carolina, vice Lewis Williams, deceased, was yesterday qualified and took his seat.

Mr. Weller presented resolutions of a meeting of citizens of Ashtabula County, Ohio, commending the course of Mr. Giddings.

The Apportionment Bill was again taken up in Committee of the Whole on the Union; the question immediately pending being on the amendment of Mr. Colquitt to exempt the State of Georgia from the operation of the General District System, as proposed by the amendment from the Committee on Elections.

Mr. Kennedy of Ia., concluded his remarks in opposition to the District System.

Mr. Barnard ably advocated the amendment, contending that the Constitution gave full power for regulating the time, place and manner of holding elections to the State first, and power to the General Government of revision and correction of State legislation when necessary, that the necessity now existed, and the District System should be adopted for the correct and perfect expression of the popular will, &c., &c.

Messrs. Payne and Clifford opposed the amendment on the grounds of constitutionality and expediency.

The House then adjourned.

The Creole Negroes have been set at Liberty.

Advices from Nassau, New Providence, of April 16th, states that at a special session of the Admiralty Court convened that day to hear the charge of piracy against the seventeen negroes, that Attorney General made his motion for delay of trial, on the ground that it was impossible to obtain the necessary evidence here, and offered for the proof of the Court a number of affidavits of the Captain, mate, crew, and passengers of the *Creole*, showing that sufficient evidence could be procured from the United States, if time was allowed. After an examination of the testimony offered, the Court replied, that were the Captain, crew, and passengers, as set forth in the affidavits, here present to testify in this case, they should consider them not entitled to belief or credit, and should charge the jury to that effect; and that no evidence could be procured to convict the prisoners at the bar, for they were perfectly justified in the course pursued on board the *Creole*, and were now about to be set free.

The Chief Justice then addressed the negroes something in this style: It has pleased God to set you free from the bonds of slavery; may you hereafter live the lives of good and faithful subjects of Her Majesty's Government. They were then set at liberty by proclamation.

It is believed that at no period within two years, has there been so much household furniture offered for sale at one time in the city of New York, as at the present. The consequence is, furniture is now selling for almost nothing. A large portion of the best furniture sold last week did not bring 33 per cent on the actual cost, and many articles less than one fourth of their value.

From Florida.

In the St. Augustine News of the 23d inst., we find an extract from a letter from a gentleman in Jefferson county, Middle Florida, dated April 11th, which says, "The Indians have killed and wounded eight or nine persons during the last week, on the east side of the Ocala; and yet we hear of the majority of the troops being withdrawn."

A singular accident lately befel Major T. S. Burnham of Burlington, Iowa, which will probably cost him his life. He was on a hunting excursion, and at night lighted his fire at the foot of a tree, near which he lay down to sleep. The fire burned through the tree which fell and came across his body.

Education is young man's capital; for a well informed, intelligent mind has the best assurance of future competency and happiness. A father's best gift to his child, then, is education. If you leave them wealthy, you may insure their ruin, at the best you only leave them that which at any moment may be lost.

Extraordinary Abstraction.

The sanctum of the Editor of the *Claremont Eagle* was invaded by some ruthless burglars, and the extraordinary sum of sixteen dollars, consisting in part of bills of broken banks, was abstracted therefrom, together with sundry editorials, which are supposed to be destroyed, as the paternity of these would be discovered should the rogue attempt to publish them. Hear how the editor discourages like a philosopher as he is.

To speak transcendently, cash is dual argenteous and paper-money. Of this little, of that a little. Its accumulation is not pinguid therein, nor adhesive likewise. Cash is devours them. It advances diurnally. Judge then of our surprise upon entering our sanctum on Wednesday morning at finding sundry indications of a forcible entrance the night previous.

The window was minus a glass, ditto its iron fastenings. The desk was minus its lock, ditto its cash. It was as clear as day light that our territory had been invaded. In a word, that we had been robbed, and we forthwith proceeded to ascertain the effect of the robbery upon the state of our finances. It appeared that from its hiding place in the desk above said, sixteen dollars in cash had been abstracted, six of which were in bills of broken banks. This, and sundry editorials left on the table for this week's paper, and which the rascals probably used to light their lamps with constitute the amount of the plunder. The arm chair, the old files and nails, scissors, and a good assortment of black list accounts against delinquents, and other fixtures of an editor's room, were left undisturbed. We wish the rogue much joy on reading our editorials in manuscript, as well as in making the discovery that a portion of his spoils consists of worthless bills.
